# Sports Achievements

“Gold medals aren't really made of gold. They're made of sweat, determination, and a hard-to-find alloy called focus”

Playing games and sports provides our students with opportunities to develop leadership skills along with the development in communication and team building. We are proud to say that these skills enable our students to function effectively as leaders as well. The attributes that our students get to learn from being involved with sports are team work, communication, strategic development and decision making.

Our College is giving substantial support and training to all the sports strivers and to become successful in their career. Our department students are national level players mainly from athletics, Basket ball, Boxing, Ball Badminton and Swimming. Our students not only excel in sports but also excel in academics. The skills they acquire from sports and academics go hand in hand to improve the student's performance in their career.

## Sports Achievements
