Department of Information Technology

ALUMNI TESTIMONIAL 2012-2016

St.Joseph's Institute of Technology has given me everything which a student could ever wish.

Those 4 years in my college has changed my life in every aspect. The set of well experienced faculties from IT department were not only focused on academics but also focus into different aspects like leadership skills, real world IT expectations, advice for higher studies and many more. Faculties are the Real pillars of my college.

*There are many forums where my college has given me opportunity to share my ideas and thoughts and one such is Tamizh Club- The right place to share my interest towards Tamizh and has allowed me develop my leadership skills through conduct various different activities for club members. Overall **St.Joseph's Institute of Technology** is the right place to learn and nourish ourselves in the time of 4 years college life.*

"St.Joseph's - a home away from home...!!

I strongly believe that st.joseph's has this three incredible traits.!

- 1. Great Academic Base*
- 2. Strong Career Foundation*
- 3. Unconditional Care and Food*

I would really like to extend my heartfelt gratitude to IT Department faculties as they showed us true care and guided us in successful path. I could still remember how our college management and our faculties have had put their efforts for our colourful Future. Not only their guidance but also their love towards us made us to what we are today. Apart from academics, I have taken many life lessons and Morals from st.joseph's. St.-Joseph's have sowed the seeds of charity, kindness in our hearts which would help us to serve the society better.

*Experience of a student in **St. Joseph's** did not stop with just academics and learning, it moulded us to the next phase of life. Provided us with all possible and greater opportunities to grab and explore as much as we could which every student would have dreamt of. Always grateful to the Institution, Department Head, Placement Head and the Department Faculties for all the support throughout the journey at SJIT. Glad to be a Josephite!!*

The teaching staff are very supportive in enhancing our technical knowledge and make sure to keep themselves updated with the latest technological advances. The college strives to provide good education and training to the students. We had easy access to any book that could help enhance our knowledge pertaining to our subjects. The excellent ABHS committee strives to guide students who are interested in higher education or joining any PSUs. Studying at SJIT was a wholesome experience with lots of extra curriculars, sports and club activities. We were encouraged to participate in national level symposiums and winners given due appreciation and acknowledgement. The college takes care to help us develop both career wise and skill wise.

St. Joseph's Institute of Technology - The best place will not be the actual word to mention, the right place is what our college is been meant for us. The ground where we had all our passion and as well as the knowledge built. Now I stay with a good leadership quality in my own profession is just because of the seed which is watered in our college St. Joseph's Institute of Technology. It is not just a name, is it where I got my identity. A perfect education institution should not only give you what is been printed in a book it should give the courage, knowledge and direction to build your life through which you will shine. This is one such. No matter what a student who spend his lifetime of 4 years here will always shine as they promise with the word "we make you shine". We have always felt the safer hands around us by all our staffs, which is more important for every student of today's world to have a peaceful education. "Proud to be a Josephite always".
