*Alumni
Testimonials*

St. Joseph's Institute of technology is a place which not only teach us just engineering studies but also provides additional skills which will definitely prove its worth in the professional workspace and ready to become a complete professional. My 4 years in this college was excellent and always a memory to be cherished for life time. The freindly attitude of professors and their willingness to always give a helping hand was much encouraging and helped me to acheive the university rank. To mention about the placement team is always committed in providing maximum opportunities to students for the right placement. Other more exciting memories were our industrial visits, college symposiums and culturals. My hearty thanks to the management for providing all these opportunities and for nuturing me as a person I am now.

Anna University Rank holder with 8.62 CGPA And Received both Perunthalaivar kamarajar award and 25,000 cash award as an appreciation

Finding the right path to success at the right time is really very important and for that way I had selected St. Joseph's Institute of Technology. It's a place of knowledge and bliss. The friendly environment and the systematic approach towards imparting education made me a competent individual. The Information Technology department helped me to get into lot of industrial visit so that i gained more industrial knowledge. The pre-placement activities were highly effective which provided a clear idea on facing interviews and helped me to secure a place in corporate. Having professors who pushed, encouraged and cared about me inspired to do best in my classes and ended with university rank. Last but not least, our college hostel and yummy food provided in our canteen with utmost care made me stay strong and happy.

Information Technology)
Senior System Engineer,
Infosys

My growth started from St. Joseph's Institute of Technology and it would not be possible without such enthusiastic Information Technology professors who are masters of their field. I think I was the student with so many questions in every lecture but my professors were so supportive that they were ready to solve my queries even if I ask them 10th time. I have seen them making so much efforts to prepare their own notes to ease our work and they taught about how to fight in life and grow on different stages. One thing that always comes first in my mind about our college is that, best hygienic food provided with so many varieties. I am proud to say that i was an University Rank Holder, and i can truly say my college was the reason for me to get it. We were awarded with cash prize, shields and certificates. There were other best things like sports, Industrial visits, visiting orphanages, festivals, celebrations. The placements trainings were most helpful for us to get selected in the companies. Whatever I am today is just because of the guidance of my professors and i am forever grateful to St. Joseph's Institute of Technology for prospering my life.

St. Joseph's Institute of Technology is one of the premier institution in India to pursue one's dreams and goals. It boasts top quality infrastructure and insightful staff members. It allowed me to learn and practice various technical as well as other communication oriented skills which are now very helpful in my workplace. I feel thankful for my Information Technology department and proud of being a josephite.

St. Joseph's Institute of Technology has provided me with a lot of opportunities and challenges which definitely made my learning intriguing throughout the four years of my undergraduate studies. I'm always an early riser, it's one of the disciplines I have learnt as a Josephite and I'm very grateful for that. Let me not forget, the food here is amazing. I have some amazing memories and friendships that were formed in my undergraduate days. There is a tremendous amount of training and opportunities provided with regards to placement. The Information Technology staff members are very professional, approachable and understanding.

St.Joseph's Institute of technology has played a crucial role in my career ladder.The Faculties are so friendly and helped me a lot irrespective of any time. Apart from academics the Information Technology department also supported me for various sports events. The placement training programs are very good which made me tactically strong in Aptitude as well as core technical concepts. Overall I strongly believe that department of Information Technology of St.Joseph's Institute of Technology is a great place to learn and grow our remarkable talents.

St. Joseph's Institute of Technology has helped me to explore various different opportunities and helped me to move forward with my career. Information Technology dept has guided me to handle the challenges with strength and courage throughout my undergraduate. Personally my four years in St. Joseph's Institute of Technology has evolved me into a strong minded person who can handle all the hurdles on the way with a positive mindset.

St. Joseph's Institute of Technology is one of the reputed institution for studying as well for knowledge gaining. I am really lucky to get exposure as a josephite .

To be more specific, during each academic year, our Information Technology department would suggest the latest technology or trending software which will be useful for our near future and would be delivered as value added course for one week .This is a major break through for our technical wisdom. Personally St. Joseph's Institute of Technology impacted me for being as an entrepreneur by providing various insights about business oriented ideas. I would be always thankful for my whole department for my growth.

St. Joseph's institute of technology is good at education. The management and the staffs help the students in their placements and provide their supports for the students in their career.

I am extremely grateful to the management and staff for their tireless efforts to ensure a bright and prosperous future for us.

The skills I have gained through my graduate studies at St. Joseph's institute of technology have equipped me to accomplish my professional goals.

The St.Joseph's Institute of Technology has laid a strong foundation both technically and as well as personally. We had lot of chances to improvise ourselves boost our self confidence and face great challenges. Our Information Technology department staffs have never let us down and with their constant support and splendid teaching we have learnt most of the subjects practically which is very much useful in the professional environment. This 4 years with this great institution has changed my life with lots of positivity and mainly has increased my punctuality and never give up attitude. We have presented papers in national level technical symposium and took up lot of mock interviews which made the final placements a cake walk. Will always be grateful for the knowledge, care and the yummy food too.

S.Sakthi Sowmya (2013-2017 Batch)

Senior Catalog Assistant,
Amazon Development Centre, India

Journey in St. Joseph's Institute of Technology has been a remarkable ride. I have tons of sweet stories and experiences which might take a whole night of narration and would still not end. But, what's more important is that the lessons and learnings we get out of those incidents. Next comes my favourite area of college ,any guesses ? ,Yup it's the college canteen ,where my college provides tasty food.

Of-course I have to say about my Information Technology department staff - They have been played a crucial role in my life where in they have moulded me where the stage am in .My time in college has enriched my life in many ways. It has provided me with the necessary tools to enhance my skills more, taught me valuable knowledge about this diverse world and people and concepts in general and eventually will enable me to hopefully become more successful in life.

I'm proud to be a "JOSEPHITE" as it has give me courage, determination and confidence to face the professional world with ease. St. Joseph's Institute of Technology has nurtured my aspirations and laid foundations to realize those aspirations.

Most of all I miss the NGO visit and Saturday activity which has taught me to transpire weakness into my biggest strength.

I would always be grateful to St. Joseph's for giving me a multi-dimensional learning by providing the apt mix of academics, industry exposure, attitude and leadership. I have made friends for life . Last but not least our college food have created an interest in cooking too 😊

"We make you shine" the tag line of St.Joseph's Institute of technology -From my experience, the institution has done full justice to the tag line. St Joseph's practices all the disciplines involved in a work environment. We were not treated as students, we were seen and treated as Corporate professionals right from first day. Nevertheless, our staffs who were very friendly, went out of their way to provide any kind of unbiased support that any student required at any point of time. The staffs always kept themselves updated on latest trends and technologies and encourage students to also come up with fresh ideas. The institution provides with exceptional placement opportunities and also motivates budding entrepreneurs as well. When I reflect back on the 4 years of experience with St.Josephs, without a shadow of a doubt, I can say that I have come out more confident, technically sound and ready for Corporate world. Now when I get appreciated for the work I do in Cognizant , it is because of the strong basement that was laid by the College on me. St.Josephs was the best investment I had ever done in my life both personally and professionally.

Praveen Kumar.B

The main aspect I like about St. Joseph's Institute of Technology is "None should be left hungry", you will always leave the campus with a full stomach. This is the place where I developed many skills and made sure that my future is secure. I got to experience the Industry knowledge first hand just by following our college guidelines. I am very thankful to all my Information Technology department staffs, they have been so helpful to us and taught us a lot of valuable things in life.

Manaswini S
(2013 - 2017 Batch-Department of
Information Technology)

Programmer Analyst,
Cognizant Technology Solutions,
Hyderabad

Textbooks can prescribe writing basics, but there's no replacement for a teacher that can say 'this is what I do and it led to the results'. We had been constantly encouraged by our professors not only in our education but also in all other co curricular activites which not only helped us achieve our goals but made us stand outside the crowd. 4 years in this institution has always been a second home, along with learnings we had built up our carrer, confidence and were completely ready in prior to handle the competition outside. "I chose to learn from the best" has always been my flash note about my college. I have been motivated, given a complete exposure and have been selected for 2 top MNC's. Currently in Cognizant am leading 2 teams at an expirence of 2+ years and have been a successful IT employee because of the good corporate exposure given to the students. Proud to be a Josephite.

St. Joseph's institute of Technology has been a great contributor to the development of my personality. I have established my leadership, time management, technical skills and team skills and have also been able to advance these to the whole new augment level. The professors here make the college what it is today. With an attitude of being ever ready to help, and not only delivering classroom teachings, but they are also the pillars of the learning gained from this esteemed college. The biggest thing for every Engineering student is to get an opportunity to start their career with a reputed organization and a good package. Comprehensive Training Programs offered by St. Joesph's institute of Technology

Benila Edwin (2013 – 2017)

Joining St. Joseph's Institute of Technology is one of the best things to happen in my life to find the best path to success. It has inculcated a lot of intra and interpersonal skills. The friendly environment, the systematic approach towards imparting education at St. Joseph's Institute of Technology made me a competent individual. The faculties are really very kind and approachable when any need arises. My IT Department Faculties inspired me a lot and thats the major reason I am a Faculty now.

My passion for teaching arose by seeing the valuable characteristics of my Faculties. When we complete studies, we come out with flying colors as a good human being. The knowledge and transformation we had with St. Joseph's Institute of Technology is the reason we find ourselves successful today.

ONE OF THE MOST INTERESTING PHASE IN LIFE WHERE WE HAVE THE OPPORTUNITY TO EXPLORE NEW THINGS IS COLLEGE. ST JOSEPH'S PROVIDED ME A WONDERFUL ENVIRONMENT TO EVOLVE IN BOTH CURRICULAR AND EXTRA CURRICULAR ACTIVITIES. EACH FACULTY MEMBER HAD SUPPORTED ME TO BE A BETTER VERSION OF MYSELF. THE PRE PLACEMENT ACTIVITIES WERE HIGHLY EFFECTIVE AND COMPREHENSIVE. IT GAVE US THE COURAGE TO FACE THE REAL TIME WORLD. HOW CAN I NOT MENTION THEM? MY COLLEGE EXPERIENCE WOULD BE INCOMPLETE WITHOUT MENTIONING ABOUT MY FRIENDS WHO WERE MY PILLARS OF STRENGTH AND I WOULD CHERISH THEM FOR LIFE.

Sinthiyaa Sivaraman

(2013-2017 Batch-Department of Information Technology)

IT Support Analyst,

Coles Group, Melbourne, Australia.

*Masters of Information and Communication Technology
(La Trobe University, Australia)*

St. Joseph's Institute of Technology serves as an extraordinary environment to learn and nurture our skills. Standing out of the crowd is very much important and the institution played an important role in developing me to become one. My college moulded me into a better person and definitely responsible for where I am today. My college management and Information Technology staffs spent their time and energy by conducting tests every day and made us well prepared for the semester exams without stressing up during the last minute. To talk about further, they make sure to guide each and every single student by either placing them in a top MNC or supporting for higher studies by organising events through ABHS. Well, I can't finish. I was fortunate to have warm and tasty food everyday. College transportation made easier and convenient for distant travels. Happy to be a part of the wonderful institution.
