# CLASS OF 2015

DEPARTMENT OF  
INFORMATION  
TECHNOLOGY

St. Joseph's Institute of Technology has given me immense freedom to experiment and learn. I got an earlier glimpse of industry with various internship programs. The faculties have deep knowledge in subjects and are easy to approach.

2015-2019 BATCH  
DEPARTMENT OF INFORMATION TECHNOLOGY

4 years in St.joseph's Institute of Technology was among the best years in my life. This because of the fact that we have excellent faculty, staff and placement coordinators who ensured we have the best of both academics and real life experiences. The learning experiences that I had here boosted my self confidence while facing interviews and also enabled me to have a bright start to my career.

" St. Joseph's Institute of Technology is not just an educational institute where academics is the only focus, but it is also a place where the students are given the liberty to learn and experience newer cutting edge technologies. The faculties of the institution especially my department, are greatly knowledgeable and played a major role in many of the Placements. Personally, it was a great experience to be a part of the 2015 batch and down the lane, it will be lifetime memory that I'll always cherish about. "

## SURYA B

" St. Joseph's Institute of technology is the place where I had this huge transition from being just a student to a corporate professional. Faculties were supportive and helpful whenever any issues and doubts arose. The exposure I got through Glugs (A Students Initiative) and workshops played a major role on what I am today. Overall, it was an awesome experience to be a part of such a standard Institution. "

## DEPARTMENT OF INFORMATION TECHNOLOGY

**St. Joseph's Institute of Technology**, amidst very good infrastructure accompanied by highly intellectual, experienced and supportive faculties and lot of engaging clubs that help the students to reach the expectations of prevailing IT industry. The staff have put more efforts that they should for the welfare of their students. And I wish to thank them from the bottom of my heart.

- Turning point of many school student . Without any knowledge about the Technologies before entering the college it was a turning point and whole new experience for me. My growth started from my college life and it would not be possible without such enthusiastic and professors who are masters of their field. These four years of hardwork, learning and experiences will surely reflect in your long-lasting career. The best part is that they gave us internships and placements in best reputed organisations. During the most crucial time of placements, the faculty and placement team provides students with lot of preparatory sessions so that they come up with their best. Feeling proud to be an

" A perfect platform which helps in the transitioning from a 'School Student' to an 'Engineering Graduate'. St. Joseph's Institute of Technology is the place which inculcated me with both technical and real life skills. This place has the perfect blend of both academics and extracurricular activities. Being taught by top-notch faculties gave me a practical understanding of the work being done in the industry, which in-turn helped me to ace my job interviews without any difficulty. Apart from these, few other takeaways one can expect from this college are: NGO visits, in-plant training, Industrial visits, Placement training, Guest Lectures, Hackathons and other student driven activities. Always proud to call myself an alumnus of St. Joseph's. "

*St. Joseph institute of technology helped me not only  
to improve my technical skills  
but also a proper communication skill.*

*Our faculties  
motivated us in creating our own path.*

*They not only make  
great engineers but a good human being too.*

*Thank you

*" Josephite days were the best part of my life. It has paved a way to lay the foundation for me as an individual to contribute to the world of technology and innovation. IT department at St.Joseph's Institute of Technology has prepared me to work in the industry by providing a strong foundation in programming. I thank all the faculties for their immense support, guidance and motivation. They have domain expertise in various fields and always ready to answer our queries and give advice. The training and activities provided by them helped me to prepare for my placements and also helped me to shape my behaviour and skills to perform better in career and in life. I thank my placement coordinators for their constant support and efforts to seek the best opportunities for us. These helped me to learn new things and the best way to interact with people. It also improved my interpersonal skills and bring out the best in me. "*

St. Joseph's Institute of technology helped me transforming from nowhere to here. Its the place where I learnt to convert potential knowledge to applied knowledge. It gave me freedom to explore on various things. The education that I have received since I began college has always been so valuable to me. With all of the different classes and coding clubs that we have taken so far, I know that I am more in-tune with many aspects of life. It gave me an experience, voice and path to various aspects of life.

St.joseph's institute of technology has the best-in-class placement training program and I will never forget how that helped me to get into an IT company. We had multiple intra-college workshops which gave us exposure to various domains out of syllabus. The college also organises NGO visits every semester to inculcate students with ethical and social values. The faculties are easily approachable and they are well equipped with knowledge and skills to support students to overcome their impediments and showcase their talent. It was an amazing experience in the journey of my life and I will always remember those beautiful days until my last breath.
