"The perfect destination for students passionate about engineering, it plays the perfect role in grooming the students to become professionals. A very disciplined institution that has carved its niche as an engineering institution that has best-in-class lab facilities and talented faculty. The placement training here is designed very meticulously and students are trained for the placements right from the first semester. Additional perks include workshops conducted in each semester and industrial visits that gives practical insight and NGO visits that are recreational as well as improve our social responsibility. They also serve healthy food and refreshing snacks that keeps you energetic. Overall it has provided a rich and wholesome 4-year experience to me!"

Finding the right path to success at the right time is very Important and for that way I had selected the St. Joseph's Institute. The systematic approach towards imparting education made me a competent individual So I would always be grateful to it. The faculties are really very kind and approachable. We are trained for our placements. Today, if I am in good position it's because of what I have learnt from the college. Lastly, I am really proud to be a Josphite.

My four years at St. Joseph's institute of technology have been excellent and a memory to cherish for a lifetime. College has a very good atmosphere, well equipped infrastructure and experienced faculties. I really like the placement process, every faculty is working really hard for all students so that they could get easily placed in best companies. Apart from academics students are also exposed to extracurricular activities such as implant training, industrial visits, NGO, sports and hackathon.
