Being the first batch students it is always an amazing one for me that the infrastructural development have been carried out very rapidly in St.Joseph's Institute of Technology. Within my third semester we had all laboratories with all equipments and facilities far better than a decade long old institutes. It was a great journey there that the four years gave me a lot of exposure and opportunities to discover my hidden talents and excel in them. I am proud to be a part of such an esteemed institution. I like the placement process of St.Joseph's which always make sure that the students get placed in the best of organizations in the industry.

*My quadrennial period at St. Joseph's was a great and cherished memory for a life time. It was full of learning and grooming oneself. It paved the way to meet different kinds of people and learn many things. I am thankful to the faculties, mentors and placement cell for their indescribable contribution in my career. Apart from learning, it also develops the humanity by organizing "NGO" programmes every semester. In brief St. Joseph's provides enormous learning experience and life time memory which etches my paths to achieve dreams.*

### ALUMNI TESTIMONIALS

Being a student of St.Joseph's I am always thankful to my department staffs for grooming to face any sort of challenges in my professional career. The faculties in Mechanical Department are always cordial with the students. They never failed in inculcating discipline and knowledge to their students. They are ready to work for us always and to help us anytime. The faculty members of my department make sure that all the sessions are interactive and interesting in nature.

If you are looking for Engineering Institute that strike the best balance with focus on academia, encouragement to participate in sports and cultural activities then there isn't a better institute than St.Joseph's. It is a place where you will find an amalgamation of learning, literature, culture, sports and many other life enhancing activities. Mechanical Engineering is a career enriching program that provides good balance of theory and practical applications covered by proficient faculties. Our Department has a unique Innovention cell which always encourages us to do innovative projects.

Throughout my life I can proudly say that I am a Mechanical Engineer and that too from St.Joseph's. I had supportive faculties in my department. It was a great memory to be cherished as I was a part of SAE Championship team and I gained real time experience as we designed and made an ATV with valuable guidance from my department staffs. Our department is having laboratories with all facilities so that we completed the fabrication process in our department laboratories itself.

My four years in St.Joseph's has been an exciting journey giving me valuable education and nurturing me into the person I am today. We have been trained from the first year for the placement and all such training program have been very useful which helped me a lot to get an offer. The faculties in my department are very vibrant and dynamic and equipped with skills to train us in a practical way with real time examples and they have played an important role in growth day to day.

### ALUMNI TESTIMONIAL

Hello this is Pradeep from 2014-2018 batch. I am currently working in Amazon India Pvt Ltd as an MI Data Associate . I was fortunate to undergo my B.E course in St. Joseph's Institute of Technology in the Dept. of Mechanical Engg. which is having good infrastructure and guiding Professors. My department helped me a lot to groom myself. My professors motivated me to learn many things apart from regular syllabus which gave me the confidence to face competitions. During symposium, we can make model of our own which I loved it. Day1 companies offer good packages in placement. So to prepare for that our college will provide you greater coaching and support through communication classes which helps you to engage, learn and develop your skills. Also our college gives you the best support for pursuing higher studies by providing support for exams like GRE, TOFEL, and GATE. Most important NGOs- which will serve you the best and cheerful moments of your life. Quality Food in hygienic environment makes everyone of us to love and remember our College.

### **ALUMNI TESTIMONIALS**

*"Missiles to reach greater heights and the rockets to carry the satellites, it is not only dependent on the fuels and propulsion system but also the launching pad. St. Joseph's Institute of Technology is one such launching pad along with excellent fuel supply called " the knowledge" and propels you to progress to reach greater elevations. Apart from the engineering and Technological acumen, I honed up my skills in diversified aspects through various professional bodies of the institution. The appreciations what we derive from the inspirational people in the Department of Mechanical Engineering bestows the diligence and the intellectual dexterity. I was awarded as the " best outgoing student, by this prestigious institution. I left my college not just with a degree but with more offer letters. Thank You all."*

## ALUMNI TESTIMONIALS

I am always proud to expose myself as a Joshephite. The four years which I spend in St. Joseph's are the most valuable and precious one throughout my life. The culture there in St. Joseph's Institute of Technology shaped me to face any sort of tedious situations in my carrier. It was a bit difficult for me to adhere with the dress code system adopted by the institution. But now I have realized the importance of it and I feel more comfortable to follow the system which is there in my Company than all others. Faculties in my department played a vital role in enhancing me day to day and I thank them once again.
